

ProteoRE

A Galaxy-based infrastructure for interpreting
and exploring mass spectrometry-based
proteomics data
Version 1.0

CEA Grenoble, BGE/BIG EDyP - INRA Jouy-en-Josas, Migale
Paris 23/01/2018

Version 1.0

- Tools developed based on 3 use cases:
 - ✧ **Exhaled breath condensate bio-analysis**
 - ✧ **Bioinformatical selection of Biomarkers**
 - ✧ **Human sperm proteome analysis**
- Certain tools deployed into Migale's production Galaxy and available at Main ToolShed
- Galaxy Community Conferences, Montpellier 06/2017
- Human Proteome Organization World Congress, Ireland 09/2017
